

### **Pink Lemonade with Lavender**

1 large punnet raspberries  
4 to 5 lemons (depending on size)  
200g sugar  
1.5 litres of water  
1 tsp lavender flowers

Peel the lemon zest off with a potato peeler, trying not to pick up any of the pith else your lemonade will be bitter.

Juice the lemons with a hand juicer – I find an electric juicer manages to get some pith in it.

Place everything in the saucepan and bring to the boil, allow to simmer for a few minutes.

Once it has cooled down strain everything through a sieve and discard the raspberry seeds, lavender flowers and lemon zest.
